# 1. Introduction by the Secretary General of the IHRC Prof. h.c. Rafal Marcin Wasik

*Ladies and gentlemen, dear Friends,*

the team of the International Human Rights Commission Foundation - IHRC based in Switzerland presents our Annual Report 2022.

Acting, also as the owner of the International Human Rights Commission Foundation Endowment Found based in the Czech Republic, on the basis of intergovernmental agreements with the authorities of states and autonomies, in particular the agreement of 4/20/2022 with the Ministry of Foreign Affairs of Ukraine representing the government , as well as the earlier agreement with the Republic of Chad, thanks to their recognition of the IHRC as a fully-fledged intergovernmental organization, the rest of the 2022 Annual Report legitimately uses the name: Transnational Intergovernmental Organization International Commission on Human Rights – IHRC.

This Annual Report 2023 necessarily only indicates our basic activities, showing the main directions of activity and generally defining the place where we were at any given moment. However, I have to admit that when I read this study, despite its limited form, I was very surprised at how vast and varied the topics covered are. I didn't expect so much to happen in 2022. This is probably largely due to the principles and methods of our organization's activities, as well as our long-term goals and aspirations.

Everyone who works within and in cooperation with IHRC sets new goals, new paths, new good standards. For them we all strive with full commitment, with all our hearts, with all our strength. We don't look back, we don't crown ourselves, we don't seek empty applause. Our reference to reality to define who we are are thousands of people we have already helped and supported. Ahead, millions are still waiting for a heart reflex, a helping hand, a kind word. For them, for those in need, the effort is worthwhile, from them we get the greatest reward - a smile and a calm look, a friendly handshake.

With our daily actions, we effectively convince others that nobody has so little that they can't share anything with those in need. Also, nobody is so rich that he could live without others. All people, in every corner of the world, regardless of gender, color, religion, wealth, sexual or political orientation or any other difference, we are one. And all of us who work at the IHRC are the best proof of that.

I want to thank you all once again for your support, cooperation, and most importantly, your commitment to what matters most in the world—my sisters and brothers and the local communities. I am honored that we found each other and that we achieve so much together.

There is no doubt that none of this would be possible without you. It is thanks to you and your daily commitment that the IHRC today plays a key role in the important area of international relations and is very well known in the intergovernmental area and has a broad structural network. It is thanks to them that IHRC has implemented and will continue to implement numerous projects around the world in close cooperation with states and local social and institutional organizations. It is thanks to you that every day is better than the one before.

I promise that in the days, months and years to come, the IHRC will continue to carry out work of public interest in the areas of human rights, democracy, healthcare, education, nutrition and safe migration and decent treatment in exile.

*...Because what we do today, we do for Generations...*

- Offices of the Secretary General of the IHRC
- Development department
- Financial department
- Legal department
- Accounting - Control Department
- IHRC Secretariat, which also coordinates and supports the activities of the Secretariats of our Offices and Missions

## 7. IHRC Group

### 7.1. History of the formation of the IHRC Group

In 2014 Prof. h.c. Rafał Marcin Wasik founded the Public Organization International Human Rights Commission (IHRC Ukraine) in Kiev (Ukraine) together with a group of local human rights activists. It made a major contribution to helping the victims of the first aggression of the Russian Federation on the territory of Ukraine. As a coordinator and main sponsor, it provided material and psychological help in cooperation with other local organizations. She supported wounded soldiers, organized medical treatment for soldiers and their families due to trauma related to participating in military operations, organized trips and summer vacations for children and their mothers, organized and funded education and training. also provided financial support to families affected by the consequences of the war. Thanks to the support of wonderful people around Prof. h.c. Rafał Marcin Wasik, he played the main role of non-state aid at that time. IHRC has been active in the ATO zone, e.g. identifying soldiers fighting on the Russian side. At the request of the IHRC Ukraine, effective humanitarian corridors for refugees from the combat zone and soldiers from European countries were created within the framework of the Minsk agreements. As a result of the IHRC's actions, the Serbian government changed its legislation and banned Serbian citizens from serving in the armed forces of other countries. In addition, IHRC Ukraine was a permanent member of the mini-region and participated in the UN Humanitarian Cluster in Ukraine.

IHRC Czech Republic was founded by Prof. h.c. Rafał Marcin Wasik and Ladislav Tesarik were founded in 2017 as IHRC Endowment in the Czech Republic and are still primarily concerned with the protection and respect of human rights worldwide and humanitarian aid. IHRC Czech Republic has accredited branches in Chad (Diplomatic Code of Accreditation - 145), Georgia (ID 405496217), Ukraine (USREOU 26628776) and Lebanon (Presidential Decree No nr 6573) as well as an office in Geneva (CHE-367.969.172). He is a member of the Directorate-General for Migration and Home Affairs of the European Commission for Migration and

Home Affairs and thus makes an important contribution to the protection of human rights. Switzerland served as the seat of the IHRC from its inception to its registration. In May 2023, IHRC Switzerland took over the role of sole founder of IHRC Czech Republic. At this point it should be emphasized that there are no financial flows between IHRC Switzerland and IHRC Czech Republic and IHRC Czech Republic as a non-profit organization carries out independent accounting under Czech law.

In June 2021, IHRC Slovakia was registered. The main direction of activity will be Southeast Europe, Asia and North Africa.

In February 2022, IHRC Switzerland was registered and took over the status of IHRC headquarters and the leading organization of the IHRC group from IHRC Czech Republic. Each organization belonging to the IHRC Group is a separate legal entity that operates in accordance with the Rules and local laws.

## 7.2. Representatives and branches of the IHRC

IHRC has officially registered offices and representative offices in the following countries until the end of 2022:

## 7.3. Foreign IHRC team

The foreign IHRC team consists mainly of local human rights and humanitarian activists who engage in their activities for our organization and build our structures within it. They build contacts with state and local authorities. They are the main links for activities and support for the local society. Many of these leaders also serve in the IHRC's Diplomatic Corps.

## 8. IHRC Diplomatic Corps (DIP)

The IHRC Diplomatic Corps currently consists of around 100 people from 38 countries. They work daily with governments, institutions and authorities of countries with which the IHRC has signed agreements or is about to sign such agreements. The Corpus also conducts negotiations with the authorities of many countries on joint action to protect human rights. The Diplomatic Corpus also supports local IHRC offices in collaborating with local and state authorities and in planning, coordinating and logistics of humanitarian assistance. An important part of the activities of the IHRC diplomatic corps is the support and content support of the SMM IHRC volunteers working in the field. Through the diplomatic recognition of state authorities, the IHRC enables the implementation of own projects and organizations aligned to its platforms without hurdles and risks as well as the reduction of administrative costs and the minimization of bureaucratic hurdles.

## **9. Special Monitoring Mission International Human Rights Commission (SMM IHRC)**

The heart of the IHRC group currently represents over 7,000 (seven thousand) officially registered volunteers who are actively working on six continents for the development and support of their local communities in 118 countries as well as at national and international levels. In each of these countries, coordination structures have been set up to act as local IHRC offices. It is volunteers who make the activities and implementation of aid projects possible with their daily and tireless commitment. The focus of voluntary work around the world is the implementation of humanitarian aid projects, the protection of human rights and the observation of the social and political situation on site in order to be able to intervene quickly and specifically if necessary. SMM IHRC volunteers are led by local IHRC coordinators who coordinate food aid, protective materials and awareness programs in the areas of human rights, civil, labor and patient rights and everyday health care and conscious participation in the labor market. Volunteers also play an important role in strengthening and protecting democracy by serving as official observers in presidential, parliamentary and local elections (particularly in Ukraine, Chad, Nigeria, Ivory Coast and Cape Verde) and make a significant contribution to fair elections. Volunteer work in connection with combating human trafficking and migration is also a priority. They have excellent knowledge of the illegal, including criminal, activities of local groups and provide advanced outposts to monitor and alert the IHRC's control structures.

## 10. Implemented Projects

IHRC has in many countries like Poland, Ukraine, Pakistan, Jordan, Lebanon, India, Iraq, Bangladesh, Sri Lanka, Malaysia, Saudi Arabia, Egypt, Algeria, Morocco, Ghana, Nigeria, Chad, Burkina Faso, Gabon, Burundi, South Africa, Central Africa, Cameroon, Georgia and Ukraine implemented over 1200 local aid and education projects. As part of these projects, we are particularly committed to women's and children's rights, environmental projects, education and the distribution of food and medical products. An important aspect of these measures is also raising awareness of the personal values of local societies and implementing health programs to protect local societies from uncontrolled epidemics.

The goal defined in the statutes is also implemented through numerous targeted projects worldwide.

- An important role is played by the FUTURE project, which involves representatives of governments, local authorities and ethnic groups from several European and African countries. The aim is to stop endangering the lives and health of people involved in illegal migration from Africa to Europe by creating alternative development perspectives and improving the situation in places where migration flows arise.
- Equally important is the Free Ukraine – Free Europe project, developed in cooperation with IHRC Ukraine, which represents a roadmap to ending the armed conflict in eastern Ukraine. Many targeted projects are created in cooperation with or in support of local and international organizations with which the IHRC has signed cooperation agreements.

Examples include contracts with the Nigerian National Trafficking Agency (NAPTIP), Cape Verde local governments, African Union AU-ECOSOCC, the micronation of Hawaii, and ministries and organizations in Ivory Coast. Additional satisfaction derived from the IHRC's work is a real one: Profit for the groups we work for. The thanks and support from individuals, clubs, organizations and local and state authorities are proof of this.

## 11. International Cooperation

### 11.1. Global collaboration platforms

The preferred form of IHRC activities are thematic platforms. By definition, their application determines the principles of cooperation that are important to us, such as transparency, partnership and equality between those involved, sincerity of intentions and actions or the pursuit of jointly agreed goals. Of course, this does not limit mutual differences, but it does not represent a wall or mutual enmity, but rather enables the phenomenon of synergy, finding new good ways and a sense of mutual support. This is one of the main reasons why the importance and perception of the IHRC by international communities and authorities has increased so rapidly and significantly as an initiator and efficient implementer of projects with a local and global reach. Below we present the most important platforms of our activities in 2022:

#### 11.1.1. United Organizations (UO)

United Organizations bring together international organizations, associations, state ministries, state agencies and companies from around the world, providing an international platform for cooperation and development. Regardless of size or location, membership in United Organizations is open to all dedicated to serving vulnerable people and advancing the greater good of humanity. The IHRC has found that many small and medium-sized organizations face insurmountable local resistance and/or government indifference. IHRC brings international organizations together with the same goals, giving them greater weight and effectiveness in protecting human rights and their humanitarian goals. At the end of 2022, 73 organizations, institutions and companies are on the United Organizations platform.

### 11.1.2. International Local Partnership (ILOPA)

ILOPA also focuses on developing quality and scope, but this time it affects local governments around the world. The main goal of this cooperation is to improve the quality and effectiveness of local government services to the local society through continuous, close and direct cooperation in the exchange of experiences, standards and principles of task implementation based on the empirical experience of local governments from other parts of the world improve. By the end of 2022, 20 local governments from Europe and Africa have decided to work together within the framework of this platform.

### 11.1.3. Observatory for the Supervision and Protection of Children, Young People and Women (OCYW)

Currently, the main activities of the Department for Children, Young People and Women are carried out by the Observatory for the Supervision and Protection of Children, Young People and Women (OCYW). The focus is on efforts to protect children, young people and women from poverty, exploitation, abuse and all forms of violence and intimidation by detecting, preventing and combating them. The observatory is headed by Dr. Salvatore Pignataro, world-renowned forensic criminologist and security expert. In addition, the Department of Children, Youth and Women is concerned with raising awareness and presenting problems and their prevention through the organization and participation in conferences, national and international symposiums and community meetings.

## 11.2. European Union

IHRC Switzerland has opened a diplomatic mission to the Directorate-General for Migration and Home Affairs of the European Commission

([https://home-affairs.ec.europa.eu/networks/radicalisation-awareness-network-ran/civil-society-empowerment-programme/csep-network-members/international-human-rights-commission-ihrc\\_en](https://home-affairs.ec.europa.eu/networks/radicalisation-awareness-network-ran/civil-society-empowerment-programme/csep-network-members/international-human-rights-commission-ihrc_en)).

At the same time, as part of the IHRC delegation, our representatives from all over the world actively participate in the work of many commissions and task forces of the European Commission and share their experiences. By participating in this work, they get to know new questions and methods and can then implement them in the relevant state and social structures in their country.

### **11.3. African Union**

The IHRC has signed a treaty with the African Peace and Security Union (APSU), a specialized structure functioning as a continental body encompassing the African continent with a clear mandate to support policies and programs that promote stability and promote development and promoting integration of the continent, as well as a memorandum of understanding with the Peace and Security Cluster of the African Union Economic, Social and Cultural Council (AU-ECOSOCC). Based on the above agreements, IHRC representatives from African countries representing our organization actively participate in the work of the African Union and its agencies, bringing the desires and needs of their countries and local societies to the world through the global experience of the IHRC Forefront of autonomous decision-making by African nations. Under the "LETTER OF ACCREDITATION" No. 006/CEI/PDT/VP-KS/WMJA, - INTERNATIONAL HUMAN RIGHTS COMMISSION - IHRC, the official representatives of the IHRC were recruited from the volunteers of the IHRC SMM in Sierra Leone under the excellent leadership of the IHRC Commissioner, Vamar Fofana performed the honorable and responsible role of observer of the elections that took place there on September 3, 2022.

### **11.4. UN**

In many European, African and Asian countries, the IHRC works closely and actively with the United Nations and its various organizations on projects initiated by both the United Nations and the IHRC, to which UN organizations gladly accept our invitations to participate use participation. This year such projects were implemented in Kosovo, Pakistan, Ivory Coast, Nigeria and Ghana. The IHRC is currently in talks with the governments of several countries to have the IHRC, upon their recommendation, become a permanent observer to the UN General Assembly.

## **12. Humanitarian Activities**

### **12.1. Ukraine**

Since the Russian Federation's aggression against Ukraine in February 2022, thanks to the efforts of the IHRC, also on the basis of signed contracts with state and local authorities and medical institutions, over 46,000 tons of humanitarian aid, including medical protective products, have been provided to civilians injured by acts of war, groceries, everyday equipment and special equipment. In addition, material and logistical assistance was provided to refugees, with a particular focus on women and children forced to migrate.

### **12.2. Georgian Autonomous Republic of Abkhazia**

Under the signed agreements, in 2022 IHRC handed over seven containers of humanitarian aid, including a fully equipped ambulance, health protection materials, equipment and necessities, and toys for children to refugees from Abkhazia under the care of the authorities of the Autonomous Republic of Abkhazia, with a total value of over 5 million dollars. This was a donation in kind from a partner.

## 14. Financing

It must be remembered that no project can be implemented without financial resources. IHRC is not a business or for-profit organization and relies on financial and material support from third parties. IHRC is funded primarily through donations from private and institutional sponsors and grants. In addition, IHRC finances itself through license fees for the use of protected brands and names. As a non-profit organization, IHRC does not generate any profits and of course does not pay dividends etc., but uses all funds exclusively for the implementation of statutory activities. In addition to purchasing the necessary relief supplies, IHRC uses its funds in particular for the maintenance and operation of embassies and representative offices and for the purchase and operation of means of transport.

All financial flows comply with EU directives 2018/843 and 2018/1673 and take place via accounts with recognized financial institutions. The principle of full transparency therefore applies. Everything is fully documented and the relevant documents are available to the responsible authorities for inspection.

A large proportion of the donations are in the form of donations in kind. In particular, the aid received from donors is distributed directly to those in need by the IHRC. Delivery and logistics costs are often covered by sponsors. Some transport and forwarding companies also participate in the form of free transport, which is often a prerequisite for the implementation of projects.

Volunteering is largely funded by the volunteers themselves or by local donations. Local sponsors often provide the necessary supplies (food, clothing, blankets, protective medical materials, etc.) on site. All volunteers are strictly prohibited from accepting monetary donations on behalf of the IHRC. This policy is clearly stated on all membership cards.

*"Because what we do today, we do for Generations"*
